NEW PUBLIC NOTICE PROCEDURES

The U.S. Army Corps of Engineers, New York District, Regulatory Branch, is committed to providing the best and quickest service to our customers while simultaneously reducing costs. One way the Regulatory Branch plans to accomplish this is by changing our procedures for publishing Public Notices (and the monthly lists of final permit actions), posting them electronically on the New York District website.

At the same time we will be updating our Public Notice distribution list, as required by 33 CFR Part 325.3(d)(4). Anyone wishing to remain on our Public Notice distribution list must complete and return the attached "Public Notice Distribution List Request Sheet" to this office at the above address or by fax at (212) 264-4260, no later than January 22, 2004. If we do not receive an updated form from you by that date, you will not be included in our new distribution list.

Upon implementation of the new procedures (tentatively set to commence on February 9, 2004), we will no longer mail paper copies of Public Notices, with limited exceptions. Instead, all Regulatory Public Notices will be posted on our website, and we will send an e-mail as each Public Notice is issued, referring recipients to our website. The address of our website is <http://www.nan.usace.army.mil/business/regulat/index.htm>. Note that applicants and adjacent property owners, Federally recognized Native American Indian Tribes, Federal congressmen, appropriate city/town officials and local post offices would continue to receive paper copies of Public Notices.

An individual exception may also be granted, allowing the continued receipt of paper copies of Public Notices, subject to the discretion of the Regulatory Branch. In order to request an exception please follow the procedures noted on the bottom of the attached form.

If you have any questions, please contact Mr. Brian Orzel at (212) 264-0183.
